EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney on 11/28/2005.

The application has been amended as follows:

Claim 28. A method for conducting lightning strike across the surface of a non-conducting article comprising:

providing a source of electrically conducting fluid;

delivering the conducting fluid to an outer surface of the article prior to a lightning strike; and directing the conducting fluid across the outer surface of the article, thereby providing a conductive channel having a current conducting capacity sufficient for passage of any electric current resulting a lightning strike and for dissipating the current through a conductive medium to which the article is electrically coupled.

Allowable Subject Matter

Claims 17-29 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 17, 27-29 recite a method and a lightning strike protection apparatus for a radome attached to an air frame comprises at least one electrostatic field sensor for detecting a change in surrounding atmospheric conditions indicative of a high probability

of a lightning strike; and means for directing the conducting fluid across the radome surface on which the protection apparatus is installed, towards the airframe, thereby providing a channel having a current conducting capacity sufficient for conducting any current induced by a lightning strike to the airframe for dissipation without damage to the radome. The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Danny Nguyen whose telephone number is (571)-272-2054. The examiner can normally be reached on Mon to Fri 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571)-272-2058. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
